MIAMI

Next-Generation Network  
Next-Generation Customer Service

## The Lightpath Difference

### A New Choice for All-Fiber Connectivity in Miami

Lightpath is a new choice for reliable, all-fiber connectivity in Miami, bringing over 30 years of experience operating in the industry. With a new, next-generation network combined with next-generation customer service, Lightpath is reinventing how to best serve customers and become your strategic network partner.

#### Next Generation Network

Lightpath has invested in network upgrades that include next-generation Ciena optical and Cisco packet networks that offer unsurpassed service levels, resiliency, reliability, and security. Our Ciena-based optical transport services offer flexible and scalable bandwidth options up to an incredible 800 Gbps.

#### The Lightpath Network

- Miami customers have access to the entire Lightpath network of over 20,000 route miles of fiber serving over 13,500 locations throughout our markets.

- The Lightpath Miami network is comprised of over 55 route miles of fiber throughout the region, including over 5 miles in the Central Business District, and connects to critical area data centers, direct connectivity to Cloud providers, and options to connect to area cable landing stations.
- Miami customers also have access to over 75 data centers throughout the Lightpath footprint, direct connectivity to Cloud providers in other markets, and 7 cable landing stations in the northeast.

Lightpath continues to increase the reach of our network by building into new service locations, adding networks in new areas, and pushing the boundaries of our current footprint.
