

Lightpath

Dedicated Internet Access

With our new, most advanced communications solutions ever
Including the fastest Internet speeds available

If you believe upload speeds are just as important as download speeds and that time equals money, Lightpath Dedicated Internet Access (DIA) is a smart solution.

Providing secure, symmetrical speeds ranging from 100 Mbps to 10 Gbps, DIA delivers guaranteed high-capacity connectivity to help maximize your business productivity. Higher bandwidths are available in some areas.

Powerful Benefits:

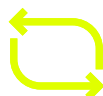

Symmetrical bandwidth

Service delivered over our **advanced, fully redundant fiber-rich network** directly to your local area network (LAN)

Scalable Internet speeds for all of your business needs ranging from 100 Mbps up to 10 Gbps

Reliable service whether your business is in a metropolitan or outlying area

99.90% network availability guaranteed by our industry leading SLA (Service Level Agreement)

Tech Specs

Network

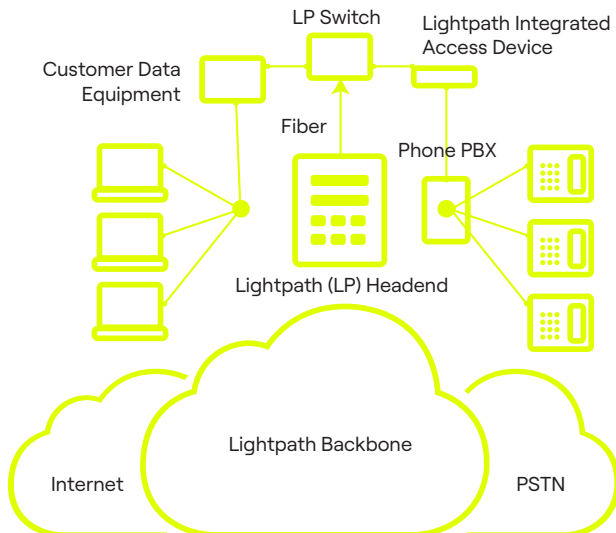

- IP over IEEE 802.3-based full-duplex non-circuit switched services
- Provisioned on our advanced fiber-rich network from the customer premises to one of many hub locations throughout the Lightpath network footprint
- Multiple levels of network fault tolerance provide a highly reliable and secure Internet access service
- Fiber access circuit is insusceptible to electromagnetic interference

Internet Access Demarcation

- Fiber connections to the Lightpath network are managed by a dedicated network interface device
- All traffic is routed over the Lightpath IP network, until the traffic is required to travel to the public network

Routing

- Routing options are static routing or border gateway protocol (BGP) Static IP Addresses
- IP address space is included
- Lightpath offers dual stacking of IPv4 and IPv6 address space

About Lightpath?

Lightpath is revolutionizing how customers connect to their digital destinations by combining our next-generation network with our next-generation customer service.

Lightpath's advanced fiber-optic network offers a comprehensive portfolio of custom-engineered connectivity solutions with unparalleled performance, reliability, and security.

Our consultative customer service means we work with you to design, deliver, and support the solution for your unique needs, faster and more easily than ever before. For over 30 years, thousands of enterprises, governments, and educators have trusted Lightpath to power their organization's innovation. Learn how Lightpath can connect you to your digital destinations.
