## Boston–New York Bypass Express Route

Lower latency without routing through Boston or  
New York City, up to **400 Gbps**

The Lightpath Boston–New York Express Route connects suburban Boston with suburban New York while bypassing routing through both cities. The distinctive path of this route also reduces latency between these markets.

Customers can utilize this route from any Lightpath location in Massachusetts to any Lightpath location in the New York Metro area and beyond. This long-haul route can efficiently avoid the NYC area to get south to Ashburn and also goes to other long-haul destinations such as Miami, Chicago, and more.

Connectivity on the Boston–New York Bypass Express Route can be customized to your specific needs, **with wavelength services up to 400 Gbps.**

To learn more about how your organization can take advantage of these new routing options, contact Lightpath today at **877-544-4872**

## Boston Area

Connect anywhere on Lightpath's Massachusetts Network, including critical data centers in areas such as Lowell, Marlborough, Needham, Somerville, Waltham, and Watertown - without routing through downtown Boston.

## New York Metro Area

Connect to almost any location on Lightpath's New York Metro Network, including critical data centers in areas such as New Jersey, Connecticut, Hudson Valley, and more - with routing that completely bypasses New York City.

## Long-Haul Destinations

Connect to areas such as Ashburn, VA, Miami, FL, Chicago, Dallas, and more locations across the Lightpath Long Haul Network - all with a contiguous service from Massachusetts to your end location. Lightpath offers 400 Gbps connectivity for Ashburn to Boston and 100 Gbps connectivity for Boston to Chicago, Miami, Dallas, and more locations.

## About Lightpath

Lightpath is revolutionizing how customers connect to their digital destinations by combining our next-generation network with our next-generation customer service. Lightpath's advanced fiber-optic network offers a comprehensive portfolio of custom-engineered connectivity solutions with unparalleled performance, reliability, and security.
