

Lightpath

Next-Gen Network Next-Gen Service

Revolutionizing how organizations connect to their digital destinations

The Lightpath difference

After 30 years in the connectivity business, Lightpath is hungrier than ever, and we are revolutionizing the industry.

We are leaving no stone unturned as we innovate across our entire organization- our network and technologies, the services we deliver, the customer service we offer, and the people and processes behind the innovation.

Reliable network technologies

Lightpath's 100% fiber-optic network is designed for reliability. POPs are diverse of common data centers and typical locations, offering more geographic diversity to ensure your business communications remain up and running.

Lightpath is investing millions of dollars in network upgrades that include next-generation optical and packet networks that provide customers with unsurpassed service levels, resiliency, reliability, and security.

Best-in-class solutions

Lightpath delivers the most comprehensive range of Ethernet-based connectivity, managed services, and industry applications solutions to meet the specific needs of your business. We provide your organization with the reliable, scalable and cost-effective solutions you need to transform the way you work.

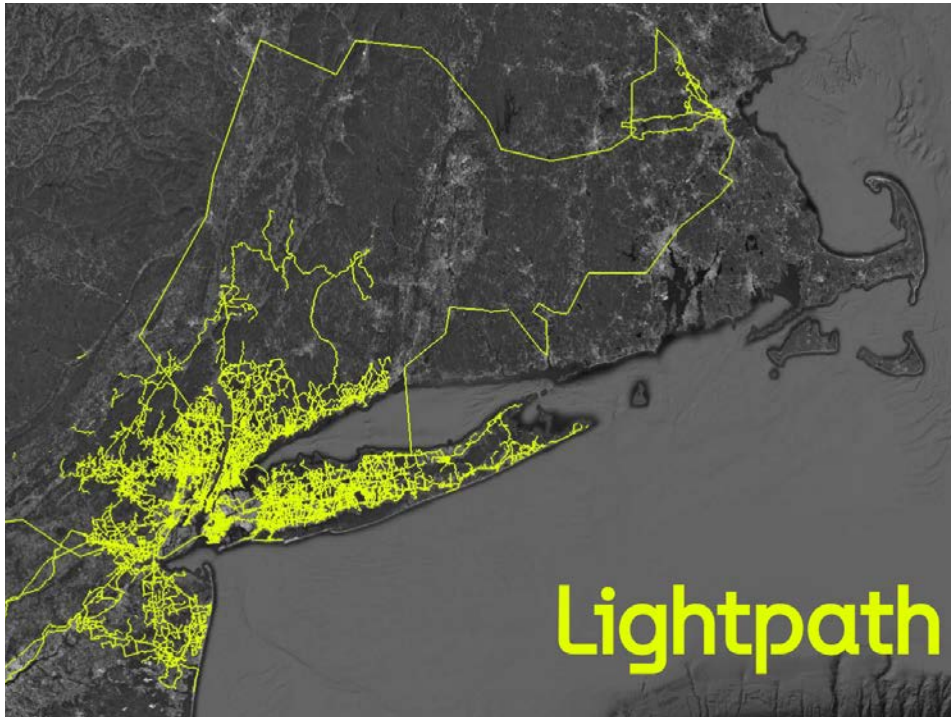

Unsurpassed lifecycle support

Lightpath teams work with you to design, deliver, and support solutions for your unique needs, faster and more easily than ever before.

- Sales Account and Engineering
- Network Management Center
- Provisioning
- Account Services

The Lightpath network

We own, operate, and manage our entire network, including ~10,800 unique route miles of fiber serving over 15,000 lit locations throughout our footprint. Connect to over 140 data centers throughout the Lightpath footprint, in addition to 7 cable landing stations, financial centers, and major cloud providers.

Lightpath continues to increase the reach of our networks by building into new service locations, adding networks in new areas, and pushing the boundaries of our current footprint.

Why Lightpath

Lightpath is revolutionizing how customers connect to their digital destinations by combining our next-generation network with our next-generation customer service. Lightpath's advanced fiber-optic network offers a comprehensive portfolio of custom-engineered connectivity solutions with unparalleled performance, reliability, and security.

Our consultative customer service means we work with you to design, deliver, and support the solution for your unique needs, faster and more easily than ever before. For over 30 years, thousands of enterprises, governments, and educators have trusted Lightpath to power their organization's innovation. Learn how Lightpath can connect you to your digital destinations.
