## Teams Phone Direct Routing

As the demand for remote and mobile workforces increases, so does the need to integrate voice calling capabilities in order to make regular and emergency calls, receive calls, transfer calls, and mute/unmute calls, all through Microsoft Teams.

Lightpath facilitates this functionality by providing Direct Routing so that Lightpath Internet customers can use their Microsoft Teams Phone System to initiate or terminate calls to/from the Public Switched Telephone Network. Lightpath Teams Direct Routing is available to Lightpath customers who have a Microsoft Teams client and phone system.

Direct Routing provides flexibility to use your Lightpath session border controllers (SBCs) and SIP Trunking services to connect Teams to the PSTN. Benefits include:

- **Faster migration to Teams** – Maintain control your phone numbers and reduce complexity by eliminating the need to port phone numbers to Microsoft
- **Easily add Direct Routing** without going to another provider
- **Reduce costs** – Take advantage of Lightpath's competitive calling plans and unlimited US domestic minutes
- **Minimize disruptions** – Continued support of existing on-premises PBXs during the transition avoids having to wait until current SIP/PSTN contacts expire before making the transition to Teams

Calls made using your Teams softphone go over the Internet to the Microsoft Cloud PBX. The encrypted traffic is then sent over the Internet to our Perimeta SBC via a Logical SIP Trunk and then to the PSTN via the Lightpath network.

To learn more about how Lightpath can help expand your Microsoft Teams functionality with Direct Routing, please call 877-544-4872.

## About Lightpath?

Lightpath is revolutionizing how customers connect to their digital destinations by combining our next-generation network with our next-generation customer service. Lightpath's advanced fiber-optic network offers a comprehensive portfolio of custom-engineered connectivity solutions with unparalleled performance, reliability, and security.

Our consultative customer service means we work with you to design, deliver, and support the solution for your unique needs, faster and more easily than ever before. For over 30 years, thousands of enterprises, governments, and educators have trusted Lightpath to power their organization's innovation. Learn how Lightpath can connect you to your digital destinations.
