

Solutions for Government

Lightpath is Your Strategic Partner for Powerful, Reliable, Secure, 100% Fiber Solutions

Experience the Lightpath difference. For over 30 years, Lightpath has provided municipalities, state, and federal government entities with innovative, next-generation, 100% fiber solutions to modernize and improve the delivery of public services, enhance operational efficiency, foster governance, and provide instant access to residents. As a strategic network partner, we use our extensive experience to identify your specific community needs and technology challenges and implement solutions to help you thrive today and into the future.

Modernize and Improve Services with unsurpassed reliability, flexibility, security, and service. Lightpath continually innovates to revolutionize our network and technologies, the services we deliver, and the customer service we offer to provide the best experience for you and your customers. Our high-performance solutions best support the evolving needs of governments, states, municipalities, public safety, first responders, EMS, Police, Fire, and more. With Lightpath's Next-Generation Network and 100% Fiber Solutions, you will:

- **Grow Economic Development.** High-speed fiber Internet infrastructure attracts business, encourages entrepreneurship, and stimulates growth.
- **Improve Infrastructure Services.** Shared services, streamlined processes, standardized workflows, and more cost-effective delivery.

- **Enable Smart City Solutions.** Advanced fiber-optic network supports smart transportation systems, efficient energy management, public safety enhancements, and improved municipal services.
- **Improve Efficiencies.** 100% Fiber Internet for seamless communication and collaboration among agencies, streamlined administrative processes, improved service delivery, and enhanced citizen engagement.
- **Bridge the Digital Divide.** Expand access to underserved communities with affordable Internet options.
- **Ensure Reliable Emergency Preparedness and Response.** Enhanced communication systems, real-time data sharing, support for disaster recovery, improved safety, and resilience.
- **Facilitate Development.** Reliable, high-speed Internet facilitates online education, workforce training programs, and telecommuting and empowers new skill acquisitions.

All-Fiber services up to an incredible 800 Gbps. Best-in-class scalable data, Internet, phone, managed services, and security solutions.

- Internet 20 Mbps to 100 Gbps
- Ethernet 20 Mbps to 100 Gbps
- Wavelengths
- Dark Fiber / Rapidpath
- Private Networks
- LP DDoS Shield
- SecureNet
- Cloud Connect
- Managed WiFi, Security
- UC, Voice, Conferencing, hosted contact center, SIP/PRI trunks, toll-free
- And more

The Lightpath Next-Generation Network

Lightpath's 100% fiber-optic network is designed for reliability. POPs are diverse in common data centers and typical locations, offering more geographic diversity to ensure your communications remain up and running. We've invested millions of dollars in network upgrades, including next-generation optical and packet networks that provide unsurpassed service levels, resiliency, reliability, and security. We continue to increase the reach of our network by building into new service locations, adding networks in new areas, and pushing the boundaries of our footprint.

Lightpath at a Glance

- 100% all-fiber network
- 18,000+ service locations
- 190+ on-net data centers
- 8 on-net landing stations
- 500+ employees
- Strong financial position

Call us today at 877-544-4872 to see how you can benefit from The Lightpath Difference
