Industry standard lead time: 60 to 120 days.

Rapidpath lead time: 15 days.

No construction. No waiting.

What is Rapidpath?

Rapidpath is Lightpath's pre-staged inter-data center dark fiber offering. Routes are built, spliced, and OTDR-tested before you order; eliminating three of the biggest friction points in dark fiber procurement: surprise pricing, long quote cycles, and unpredictable install timelines. You bring your own optics, control your wavelength plan, and run your own network. Lightpath owns and maintains the physical infrastructure.

Why Rapidpath?

- **No Surprises Pricing, Quote, or Install:** Pre-approved pricing. No waiting on a quote. Turn-up in as little as 15 business days. All three together eliminate the friction that makes dark fiber feel slow and risky.
- **Dedicated, Not Shared:** Strands are dedicated to you. No bandwidth contention, no shared infrastructure — full Layer-1 control from endpoint to endpoint.
- **Newer Glass:** Much of the dark fiber market was built in the early 2000s and is aging. Lightpath's network runs on recently built glass, lower attenuation, ready for 400G+ coherent optics, and growing. We will grow with you.
- **Transparent by Design:** Routes, endpoints, maps, and pricing available before you sign. No NDA required to see where we are or what it costs.
- **Built Where Demand Is Concentrated:** Every enabled location was selected for carrier and enterprise traffic density, not route convenience.

About Lightpath

Lightpath is revolutionizing how customers connect to their digital destinations by combining our next-generation network with our next-generation customer service. Lightpath's advanced fiber-optic network offers a comprehensive portfolio of custom-engineered connectivity solutions with unparalleled performance, reliability, and security.

Our consultative customer service means we work with you to design, deliver, and support the solution for your unique needs, faster and more easily than ever before. For over 30 years, thousands of enterprises, governments, and educators have trusted Lightpath to power their organization's innovation. Learn how Lightpath can connect you to your digital destinations.
