

Lightpath

SMART Wi-Fi

Network as a Service for Small Businesses

Intended for locations up to 7,500 sq. ft*

Your Wi-Fi is a part of the customer experience. The network carries point of sale, inventory, payments and more, so you need an enterprise-grade network.

Lightpath SMART Wi-Fi is an enterprise-grade managed network for retailers, restaurants, offices and other businesses. We design, install, monitor and maintain the network, so your staff doesn't need to.

One provider, one bill, and one affordable flat-rate price that's easy on your bottom line.

How Easy is Lightpath Smart Wi-Fi?

Turnkey: 1-4 access points per location, up and running in minutes

Fully Managed: 24/7 technical support frees up in-house resources

Cost Effective: Predictable flat-rate pricing, no surprises or hidden fees

Customizable Guest Experience

- Custom splash pages unique to your business
- Create surveys and promos
- Manage guest and private networks
- View network performance
- And more...

Gain the Advantage of Hassle Free Network Management:

Ruckus enterprise access points selected at install

Lightpath SMART Wi-Fi customers get highly reliable, high-performing, and secure plug-and-play implementation for every possible need.

Comes With:

- Higher receive sensitivity on 2.4 GHz and 5 GHz radios to compensate for weak transmitting devices such as smartphones and tablets
- Extra transmit and receive antenna for better reliability, coverage, and performance
- High availability (HA cloud controller) with zero packet loss failover ensures a reliable, always-on network
- Support for voice, data, and video over Wi-Fi

Lightpath SMART Wi-Fi is the reliable, secure and manageable solution that makes always-on Wi-Fi easy and affordable.
