

Lightpath

SMART WiFi

SMARTer, Simpler, Affordable, Managed WiFi

Business WiFi has evolved from a nice perk to a business-critical amenity. Staying competitive today requires the reliable, seamless WiFi your customers demand along with the powerful marketing capabilities and customer insights your business needs.

Lightpath SMART WiFi is a managed, enterprise-grade, reliable, high-speed solution that is not only fast and easy to implement but also includes brand engagement capabilities to help grow your business — all at an affordable flat-rate price that's easy on your bottom line.

How Easy is Lightpath Business Smart WiFi?

Turnkey: 1-4 access points per location
Up and running in minutes

Fully Managed: 24/7 technician support
Frees up in-house resources

Cost Effective: Predictable flat-rate pricing
No surprises or hidden fees

Portal for Increased Brand Engagement

- Customizable splash page unique to your business
- Data analytics and reporting
- Guest and private network support
- Promotional campaigns
- Customer notifications
- And more...

Gain the Advantage of Hassle Free Network Management:

Ruckus R510 Access Points

Lightpath SMART WiFi customers get highly reliable, high-performing, and secure plug-play implementation for every possible need.

- Data rates up to 867 Mbps on 5 GHz and 300 Mbps on 2.4 GHz (total of 1.2Gbps)

Comes With:

- Dual radio 802.11ac/a/b/g/n
- Higher receive sensitivity on 2.4 GHz and 5 GHz radios to compensate for weak transmitting devices such as smartphones and tablets
- Extra transmit and receive antenna for better reliability, coverage, and performance
- High availability (HA cloud controller) with zero packet loss failover ensures a reliable, always-on network
- Support for voice, data, and video over WiFi

Lightpath SMART WiFi is the reliable, secure and manageable solution that makes always-on WiFi easy and affordable.
