Lightpath

Wavelengths

Designed for Flexibility and Modularity

With Lightpath Wavelengths, your business gets modular, cost-effective point-to-point transport on a dedicated wavelength of up to 400 Gbps. Run a single high-capacity wave, or use sub-rate multiplexing (SRM) to carry multiple services over one connection.

Get all this while reducing cost, operational complexity, and resources associated with adding, changing and removing connections.

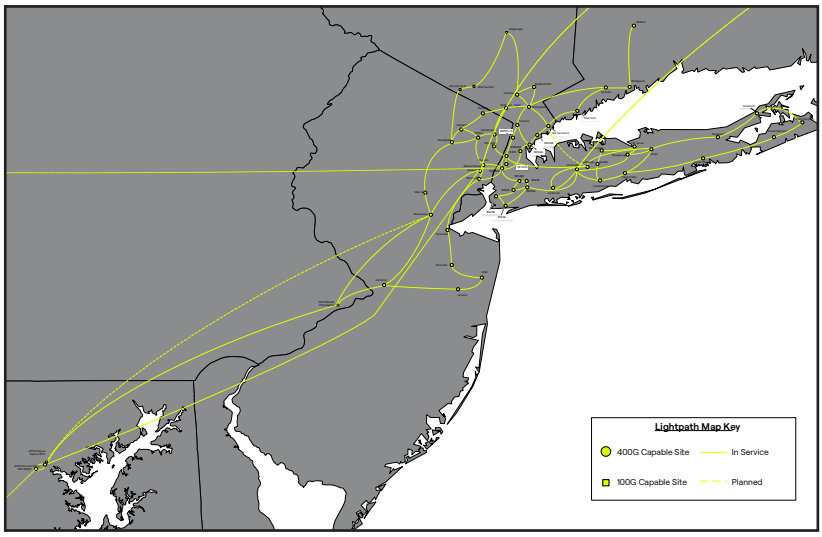

Manage your network simply.

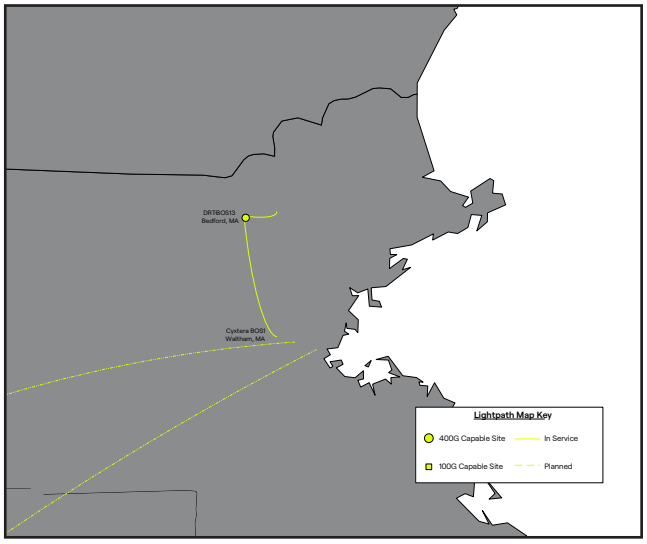

With flat-rate pricing and simple standardized packaging, Lightpath provides your business with the flexibility and scalability you need.

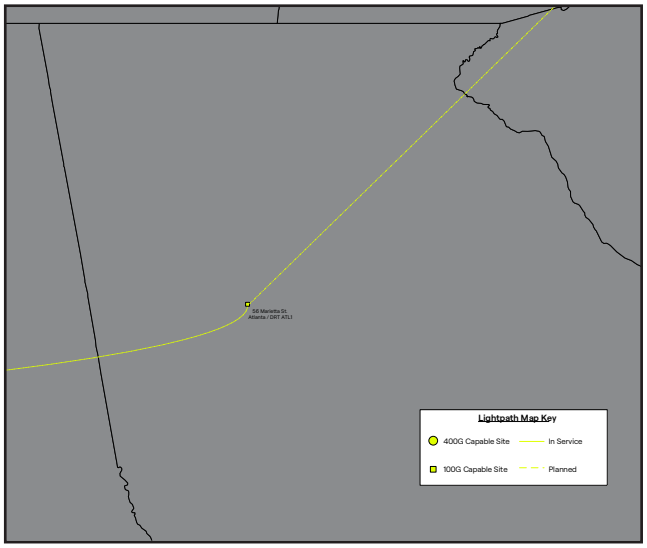

Solutions-based benefits:

- **Security** – Give your business peace of mind, wavelengths offers Layer-1 security. Lightpath also offers an Optical Encryption product for added protection.
- **Customization** – You are able to address evolving business needs with a modular and customizable solution
- **True Simplicity** – Your business can count on seamless installation, and award-winning Customer Care, making it easy to manage your network
- **Multiple Configurations** – Additional protection levels available.
