

Lightpath

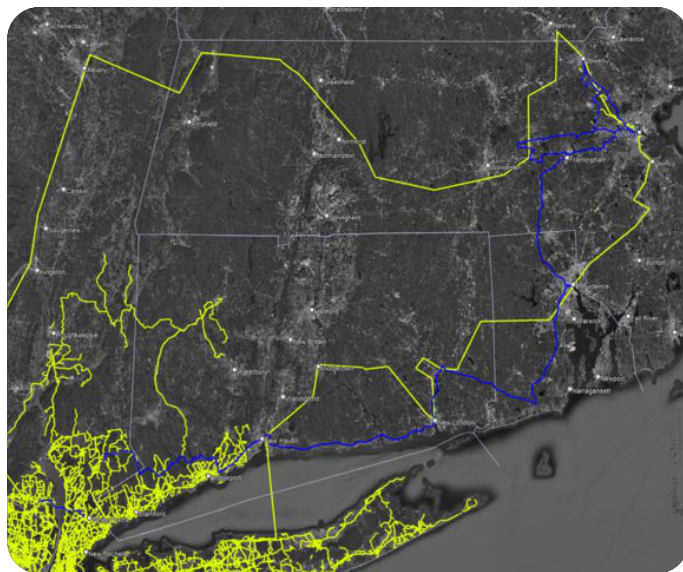

Boston-New York Bypass Express Route

Lower latency without routing through Boston or New York City, **up to 400 Gbps**

The Lightpath Boston-New York Express Route connects suburban Boston with suburban New York while bypassing routing through both cities. The distinctive path of this route also reduces latency between these markets.

Customers can utilize this route from any Lightpath location in Massachusetts to any Lightpath location in the New York Metro area and beyond. This long-haul route can efficiently avoid the NYC area to get south to Ashburn and also goes to other long-haul destinations such as Miami, Chicago and more.

Connectivity on the Boston-New York Bypass Express Route can be customized to your specific needs, **with wavelength services up to 400 Gbps.**

Boston Area

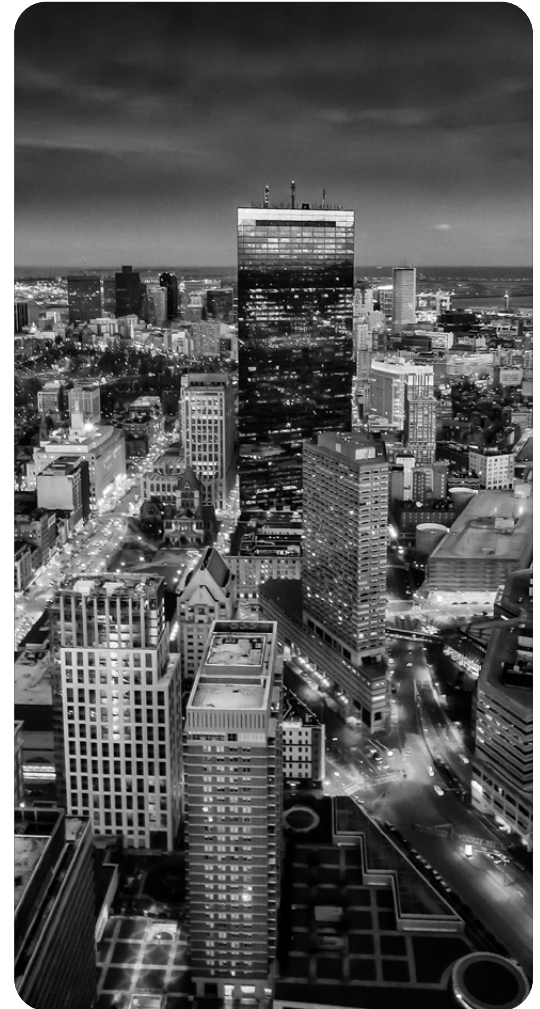

Connect anywhere on the Lightpath Massachusetts Network, including critical data centers in areas such as Lowell, Marlborough, Needham, Somerville, Waltham and Watertown, without routing through downtown Boston.

New York Metro Area

Connect to almost any location on the Lightpath New York Metro Network, including critical data centers in areas such as New Jersey, Connecticut, Hudson Valley and more, with routing that completely bypasses New York City.

Long-Haul Destinations

Connect to areas such as Ashburn, VA, Miami, FL, Chicago, Dallas and more locations across the Lightpath Long Haul Network, all with a contiguous service from Massachusetts to your end location. Lightpath offers **400 Gbps** connectivity for Ashburn to Boston and **100 Gbps** connectivity for Boston to Chicago, Miami, Dallas and more locations.

About Lightpath

Lightpath owns, builds and operates an all-fiber network built for the AI era, delivering high-capacity, low-latency connectivity for cloud, hyperscale, data center and mission-critical enterprise workloads. With more than 12,100 route miles of fiber, the Lightpath Network reaches over 17,500 service locations, 190+ on-net data centers and eight subsea cable landing stations across 11 major U.S. metro markets. Backed by unwavering service and direct access to the engineers who design and operate your routes, Lightpath has supported thousands of enterprises, governments and educators for more than 30 years. **Fearless builds. Unwavering service.**
